# Table of Contents

Chapter 1. Set Theory and Logic
James Munkres **1**

Chapter 2. Topological Spaces and Continuous Functions
James Munkres **73**

Chapter 3. Connectedness and Compactness
James Munkres **145**

Chapter 4. Countability and Separation Axioms
James Munkres **187**

Chapter 5. The Tychonoff Theorem
James Munkres **228**

Chapter 6. Metrization Theorems and Paracompactness
James Munkres **241**

Chapter 7. Complete Metric Spaces and Function Spaces
James Munkres **261**

Chapter 8. Baire Spaces and Dimension Theory
James Munkres **292**

Chapter 9. The Fundamental Group
James Munkres **317**

Chapter 10. Separation Theorems in the Plane
James Munkres **372**

Chapter 11. The Seifert-van Kampen Theorem
James Munkres **403**

Chapter 13. Classification of Covering Spaces
James Munkres **443**

Chapter 12. Classification of Surfaces
James Munkres **468**

Bibliography
James Munkres **499**
